

## TEXTO

### CELEBRATING PICASSO

Pablo Picasso is probably the most important figure of the 20th century, in terms of art and art movements. Before the age of 50, this Spanish-born artist had become the most well-known name in modern art, with the most distinct style and eye for artistic creation. There had been no other artists, prior to Picasso, who had such an impact on the art world as he did.

The 8th of April 2023 marked the 50th anniversary since his death, and Madrid is set to host many of the activities featured in a programme put together by the French and Spanish governments to honour the occasion.

Organised with the support of renowned cultural institutions in Europe and the USA, Celebrating Picasso 1973-2023 features fifty exhibitions and events which together provide a historiographical analysis of the artist's work.

Pablo Picasso was born in Málaga, Spain, on the 25th of October 1881, and died in the French town of Mougins on the 8th of April 1973. One of the most famous painters in the history of Western art, his free, expressive, multifaceted artistic language continues to influence contemporary art and thinking.

Celebrating Picasso 1973-2023 seeks to showcase the career of the European artist who not only drew on his deep knowledge of heritage and the principles of tradition, but also on his understanding of classicism as an ethical value, in order to create iconic, internationally acclaimed works.

Picasso's free spirit, his eccentric style, and his complete disregard for what others thought of his work and creative style, made him a catalyst for artists to follow. Now known as the father of modern art, Picasso's originality touched every major artist and art movement that followed in his work. Even as of today, his life and works continue to invite countless scholarly interpretations and attract thousands of followers around the world.

## CUESTIÓN 5ª (2 puntos).

Write a composition (90-110 words) talking about your taste in music. Do not forget to mention:

- How often you listen to music.
- What genres of music you like and dislike.
- Who your favourite musician, band or group is.
- How important music is in your life.

Music is a daily essential in my life, it makes my day better, and I find myself immersed in pop tunes regularly. While pop is my mainstay, I also explore other types of pop, like indie pop and electropop. Taylor Swift is my favorite singer because she writes great songs, and her music always sounds different and interesting. Music isn't just background noise; it helps lift my mood and keeps me grounded emotionally. Pop music is like a friend that is always there, making my days more fun and exciting.
